DEPARTMENT OF COMPUTER ENGINEERING

Date: 25.01.2024

TO WHOM IT MAY CONCERN

I am writing to express my support for Mr. Ameen Ur Rehman, a graduate student at Jamia Hamdard, who approached me with a keen interest in conducting research under my guidance. Ameen Ur Rehman is currently collaborating with me on a research project focusing on Hindi English Multilingual Sentiment Analysis.

Having interacted with Ameen Ur Rehman in the meetings held in past, I found him consistently dedicated, skilled, and passionate for computer science, particularly in the field of artificial intelligence, machine learning, natural language processing, etc. He has demonstrated a deep understanding of the theoretical concepts and has consistently applied them in practical situations. Moreover, he possesses excellent programming skills, particularly in languages such as Python, Keras and Hugging Face which will undoubtedly lead to successful completion of the project.

Ameen Ur Rehman has expressed curiosity in exploring the intricacies of sentiment analysis in a multilingual context, and I believe this background makes him a suitable candidate for pursuing career in research. The collaborated research project with me aligns seamlessly with his academic and research interests.

Ameen Ur Rehman has strong desire to extend his academic pursuits to a research institute of repute, I believe he would be a valuable addition to the research community.

(Dr. Mohammad Zeeshan Ansari)

Assistant Professor
