Education

Jamia Hamdard University, B.Tech in Computer Science and Engineering Aug 2021 – Aug 2025

- GPA: 3.36/4.0, Grade: First Division with Distinction
- **Coursework:** Machine Learning, Computer Networks, Computer Architecture, Mathematics, Deep Learning

Research Experience

Robotics Intern, MDIT Lab, SeNSE, IIT Delhi – Delhi, IND Feb 2025 – Present

- Developing a Simscape Multi-Body MATLAB simulation for prosthetic arm kinematics and motion analysis.
- Implementing forward and inverse kinematics for realistic arm movement and joint coordination.

Research Intern, MACSSL Lab, Koc University – Istanbul, TR Jun 2024 – Sep 2024

- Engineered ML model using 50k+ WHO documents to predict sentiments, conditions, and exemptions.
- Analyzed 1200+ WHO meeting minutes to detect alliances, stances, and member sentiments.

Research Intern, Jamia Millia Islamia – New Delhi, IND Aug 2023 – Jan 2024

- Built a TensorFlow multilingual sentiment model, boosting benchmarks by 27% with Sentimix-Hinglish data.
- Led NLP research, refining transformer-based methodologies and exploring LLM advancements.

Undergraduate Research Assistant, Jamia Hamdard – New Delhi, India Aug 2023 – Jan 2024

- Developed AI-driven multimodal models integrating NLP, computer vision, and financial data to enhance decision-making, emphasizing ethical and socially responsible AI applications.
- Reviewed 27 papers on deep RL, boosting stock price forecasting accuracy by 8% in 14 trials.

Publication and Conference

R. Sullivan, R. P´egoud, **A. U. Rehman** et al. “Syllabus: Portable Curricula for Reinforcement Learning Agents.” (2024), preprint at arXiv. [arXiv:2411.11318](https://arxiv.org/abs/2411.11318)

U. Rawat, Abhishek, H. Singh, **A. U. Rehman**. “Book Chapter: Cybersecurity challenges and risks in AGI development and deployment.” (2024), published at Springer. [10.1007/978-981-97-3222-7-14](https://doi.org/10.1007/978-981-97-3222-7-14)

A. U. Rehman, T. Majid, A. Javed et al. “Enhancing Stock Price Prediction with Deep Reinforcement Learning: A Time Series Analysis Approach.” (2023), ICSTACE. [IJSCAI-IRAJ-DOIONLINE-20402](https://doi.org/10.5281/zenodo.10434199)

A. U. Rehman. “A Comparative Study of Deep Reinforcement Learning in Robotics.” (2023), presented at International Journal of Engineering Sciences and Emerging Technologies (IJESET). [10.5281/zenodo.10434199%20](https://doi.org/10.5281/zenodo.10434199)

A. U. Rehman, A. Ahmed, A. Sadiq et al. “Synergetic Intelligence: A Multi-Agent Learning Framework for Sustainable Healthcare Computing.” (2024), accepted at ICIDSSD 24. [Link](#)

Professional Experience

Research Project Contributor, MARL Lab, University of Maryland – Remote, MD Feb 2024 – Jun 2024

- Implemented simulated annealing and robust prioritized level replay version for the design of an unsupervised environment, reducing the loading time by 20% and improving the robustness of the curriculum. Developing [Syllabus](#), an API to synchronize RL curricula between environments.

Open-Source Contributor, Ivy – Remote, UK Aug 2022 – Dec 2023

- Optimized the front-end with PyTorch Lightning and NumPy for wrapping with [Unify-Ivy](#) API, reducing loading times by 12%, boosting user engagement by 7%, and resolving 5+ critical issues for improved performance.

Projects

Agriculus

[agriculus/github](#)

- Developed a precision agriculture solution with 99.3% XGBoost and 98% RNN accuracy, expanded Agriculus to Android & web, and won multiple hackathons for innovation.
- Tools Used: Python, XGBoost, Deep Learning, SVM, Web Development.

ML Playground

[ml-playground/github](#)

- Established an open-source GitHub repository with 12+ ML projects, boosting practical examples by 65%, and built a vibrant ML community through biweekly workshops with 200+ enthusiasts.
- Tools Used: Machine Learning, Python, Scikit learn.

OpenCV Kit

[opencv-kit/github](#)

- Built a real-world ML repository featuring deep learning & OpenCV projects, optimized image processing algorithms with YOLO integration, achieving a 7% performance boost.
- Tools Used: Python, OpenCV, Machine Learning, Mediapipe, Streamlit.

Technologies

Languages: Python, C++, C, HTML, CSS, JavaScript, Go.

Frameworks: Scikit, TensorFlow, Keras, PyTorch, OpenCV, Flask, NodeJS.

Developer Tools: Matlab, Google Colab, Jupyter, PyCharm, VSCode, OverLeaf, Docker, Github. Canva, Postman.

Technologies: ChatGPT, Bard, Git, PowerBI, AWS, WordPress.

Database: SQL, MySQL, PostgreSQL.

Leadership and Mentorship Experience

Student Ambassador, Microsoft Learn Student Ambassador

Aug 2023 – May 2024

- Led and mentored a team of 10+ individuals and facilitated 5+ feedback sessions to drive continuous improvement and empower peers.

Machine Learning and Artificial Intelligence Lead, Google Developer Group

May 2022 – Aug 2023

- Led Machine Learning and AI initiatives, boosting student participation by 30%, enhancing knowledge-sharing by 25% through [Lectures](#), and completed 6 domain-specific projects, vital for GDSC's growth.

Machine Learning and Artificial Intelligence Mentor, IIT Kharagpur (KWOC)

Dec 2022 – Jan 2023

- Guided 60+ students, fostering innovation and boosted engagement by 25% through facilitated knowledge sharing, supported 20+ open-source contributions.

Achievements

- Winner of Hack-A-Thon from 45+ Universities for AI/ML Domain.
- Winner of Internal Hackathon of Smart India Hackathon (SIH) 2023.
- Finalist of HackJNU 3.0 from 55+ Universities for AI/ML Domain.
- Fellow of Season 3 The Nights and Weekends at buildspace.
- Participant at Robotics and AI Summer School | Institut de Robòtica i Informàtica Industrial, Spain.
- IEEE Tech-Member Advisor and ML/AI Mentor HackClub at Jamia Hamdard.
